## HARVEIAN ORATION.

---

Harvey gave to the College during his lifetime his patrimonial estate of Burmarsh, in Kent, then valued at £56 a year. In the conveyance of this gift by an indenture dated 26th June, 1656, Harvey directs that "to the end friendship between the members of the said College may the better be continued and maintained, there shall be, once every month, at the meetings of the Censors at the same College, some small collation provided, such as the President shall think fit, for the entertainment of those who shall come to the said monthly meeting. And once every year there shall be a general Feast kept within the said College for all the Fellows that shall please to come; and on the day when such feast shall be kept some one person (member of the College), to be from time to time appointed by the President and two eldest Censors, and two eldest Elects (so that the same person shall not be appointed two years together), shall make an oration in Latin publicly in the said College, wherein shall be a commemoration of all the Benefactors of the said College by name, and what in particular they have done for the benefit of the said College, with an exhortation to others to imitate these Benefactors, and to contribute their endeavours for the advancement of the Society according to the example of these Benefactors; and with an exhortation to the Fellows and Members of the said College to search and study out the secrets of Nature by way of experiment; and also for the honour of the profession, to continue in mutual love and affection amongst themselves, without which neither the dignity of the College can be preserved, nor yet particular men receive that benefit by their admission into the College which else they might expect, ever remembering that *Concordiâ res parvæ crescunt, discordiâ magnæ dilabuntur.*"

## THE LUMLEIAN LECTURE.

In the 24th year of Elizabeth, 1581, Dr. Richard Caldwell, a Fellow and former President of the College, in conjunction with the Lord Lumley, founded the Lumleian Lecture in Surgery, commonly called in the annals The Chirurgical Lecture, and endowed it with a rent-charge of forty pounds a year on their lands and on those of their heirs for ever.

The College, on the grant of the letters patent founding this Lectureship, "did immediately decree that one hundred pounds

should be forthwith taken out of their public stock to build the College rooms more ample and spacious, for the better celebration of this most solemn lecture."

A very ambitious scheme of Surgical Lectures was at first adopted, an account of which may be found in Hollinshed (*Chronicles*, vol. iii., p. 1349); but it soon ceased to be either practicable or required.

### GOULSTONIAN LECTURE.

---

In 1632, Dr. Goulston, a fellow of the College, left £200 to purchase a rent-charge for the maintenance of a lecture to be delivered annually within the College of Physicians, the lecture to be read from time to time by one of the four youngest doctors in physic of the said College, upon two or three or more diseases. An annual rent of £12 charged on land called Fennes and Buckwood in Essex, was purchased by his widow with the £200, and conveyed to the College, 24th July, 1635, in trust,

that they would annually appoint one of their four youngest doctors to read this lecture between Michaelmas and Easter, on three days together, both forenoon and afternoon, on some dead body if possibly it can be procured, which shall then and there be dissected for the diseases treated of, and shall afterwards be buried.

### CROONIAN LECTURES.

---

Dr. Wm. Croone, a fellow of the College, left behind him at his death, in 1684, a plan for two lectureships which he had designed to found; one of these to be read yearly before the College of Physicians, with a sermon to be preached at St. Mary-le-Bow, the other, on the nature and laws of muscular motion, to be delivered annually before the Royal Society. But as his will contained no provision whatever for the endow-

ment of these lectures, his widow (a daughter of Alderman Morimer, of the City of London, who subsequently married Sir Edwin Sadler, Bart.), carried out his intention by demising in her will, dated 21st September, 1706, the King's Head Tavern in Lambeth Hill, Little Knight-ride Street, to her husband for life, and after his decease to her executors in Trust, to settle four parts out of five thereof upon the College of Physicians, to found an annual lecture now called the Croonian Lecture, and the fifth part upon the Royal Society.

A new lease of the premises having been granted in 1886 at a greatly improved rent, it was resolved that in future the course should consist of not less than four lectures on one or more subjects in Anatomy, Physiology, and Pathology, with a view to the prevention, control, and cure of diseases. That an honorarium of one hundred guineas be paid to the Lecturer, and that the remainder of the fund be employed for original investigation by a past or present Croonian Lecturer.

## BRADSHAW LECTURE.

The Bradshaw Lecture was founded by the late Mrs. Bradshaw, widow of Dr. Wm. Wood Bradshaw, M.A., D.C.L. Oxford, a member of the College, in memory of her husband. She bequeathed to the College by will, dated 6th September, 1875, and proved 26th August, 1880, a sum of £1,000 Three per Cent. Consols in trust for this purpose. The Lecture to be delivered annually on the anniversary of the death of Dr. Bradshaw, Aug. 18th, on some subject connected with Medicine or Surgery, by some person appointed by the President. The bequest was received, and the first lecture given, in 1881.

In 1891 the sanction of the Charity Commissioners was obtained to vary the date of delivery.

### MILROY LECTURES.

---

Dr. Gavin Milroy, a fellow of the College, who died 11th January, 1886, by his will bequeathed "to the President and Council of the Royal College of Physicians for the time being, a sum of £2,000 for the purpose of founding and continuing a yearly lectureship of three or more lectures on State Medicine and Public Hygiene, and upon trust to invest the same in the public funds, or in such other investment as they shall in their absolute discretion think fit, and upon trust to pay the income thereof to a lecturer, to be appointed by them from time to time, with full power and authority for the President and Council for the time being to vary investments, and at all times to manage, appropriate, and dispose of the said funds and the income thereof as they shall in their absolute discretion think fit."

The College resolved that the suggestions of Dr. Milroy with regard to the subjects of these Lectures should be adopted as the foundation of any scheme of Lectures in connexion with his bequest, and these "Suggestions" are kept in print for the guidance of Lecturers. It was further resolved that the Lectures be known as "The Milroy Lectures in State Medicine and Public Health," and that the course comprise not less than three nor more than six Lectures.
